

LEARN Network

Expression of Interest

Instructions: All applicants are required to fill out all parts of the Expression of Intent (EOI) form.

1. Contact Information

Name (First, Middle)

Last Name

Phone

Email

Mailing Address

Institutional Affiliation

City

Year of PhD Graduation

2. Curriculum Vitae

Please attach an up-to-date CV (no more than 10 double-spaced pages) that details educational background, employment history, research experience, publications, and relevant academic or professional achievements.

3. Research Interest Summary: (Not to exceed 500 Words)

What is your research interest or line of work within education or child development and what are current and anticipated projects? Please include: (1) how your research interests align with the objectives of LEARN, specifically how they have the potential to promote human development and learning; (2) how you have demonstrated a commitment to rigorous research methodologies; and (3) how your participation in LEARN would further your research goals.

4. LEARN Capacity Exchange Summary (Not to exceed 500 words):

In this section, please describe: (1) why you are interested in joining LEARN; (2), what you hope to gain from network membership; (3) what you can contribute to the network and its goals; and (4) how your planned projects align with the goals of the LEARN network, particularly around advancing the goals of child development and/or education research via rigorous research methods.

5. Experience in research methodologies

Note: This section is for informational and planning purposes and will not affect the outcome of your candidacy.

On which methodologies have you been trained and/or are comfortable using independently in your research.

Qualitative (Interviews, focus groups, case studies, etc.)

Regression and correlations

Psychometrics (factor analyses, reliability, validity, etc.)

Descriptive statistics (Means, standard deviations, frequency distributions, etc.)
Longitudinal methods (Cohort studies, growth curves, etc.)
Mixed methods
Experiments (RCTs)
Quasi-experimental (IVs, Difference-in-difference, regression discontinuity, etc.)
Other.

If you use a coding software, please indicate which ones you use

SPSS
SAS
STATA
R
Qualtrics
Excel
Other:
